The following UCI regulations will apply in all Senior, Junior and Women's races in the series:

- Only cyclo-cross bikes are permitted.
- Straight handlebars are prohibited.
- Disc brakes are allowed.

Riders who are lapped must leave the race the next time they cross the finish line. They will be listed in the results in the order in which they are pulled out of the race, plus number of laps which have not been completed.

At the discretion of the president of the commissaires' panel, and after discussion with the organiser, the "80% rule" may be applied. Any rider whose time is 80% slower than that of the race leader's first lap will be pulled out of the race. He/she shall leave the race at the end of the lap in the zone provided for the purpose, except when the rider is on his/her final lap.

No feeding is permitted.

Bikes or equipment may only be exchanged in the designated pits.

A rider may only take the pit lane to change a bicycle or wheel.

Equipment changes may only be carried out on the box side of the lane. No person may stand on the side opposite the boxes.

All races will employ a gridded start. In the Elite/Under-23 men's races, seeding will follow the UCI Cyclo-Cross Classification, followed by the series standings; for the other categories the series standings will apply. In the opening round, seeding will be based upon the previous season's final standings and National Championship results.

NB: Competitors in ALL British Cycling cyclo-cross events must comply with UCI restrictions on non-standard wheels. The use of wheels with less than 16 spokes which have not been approved by the UCI is forbidden.
